

GAS-S Student Success Pathway

Development of a
University/College Pathway for
Academic Success Remediation

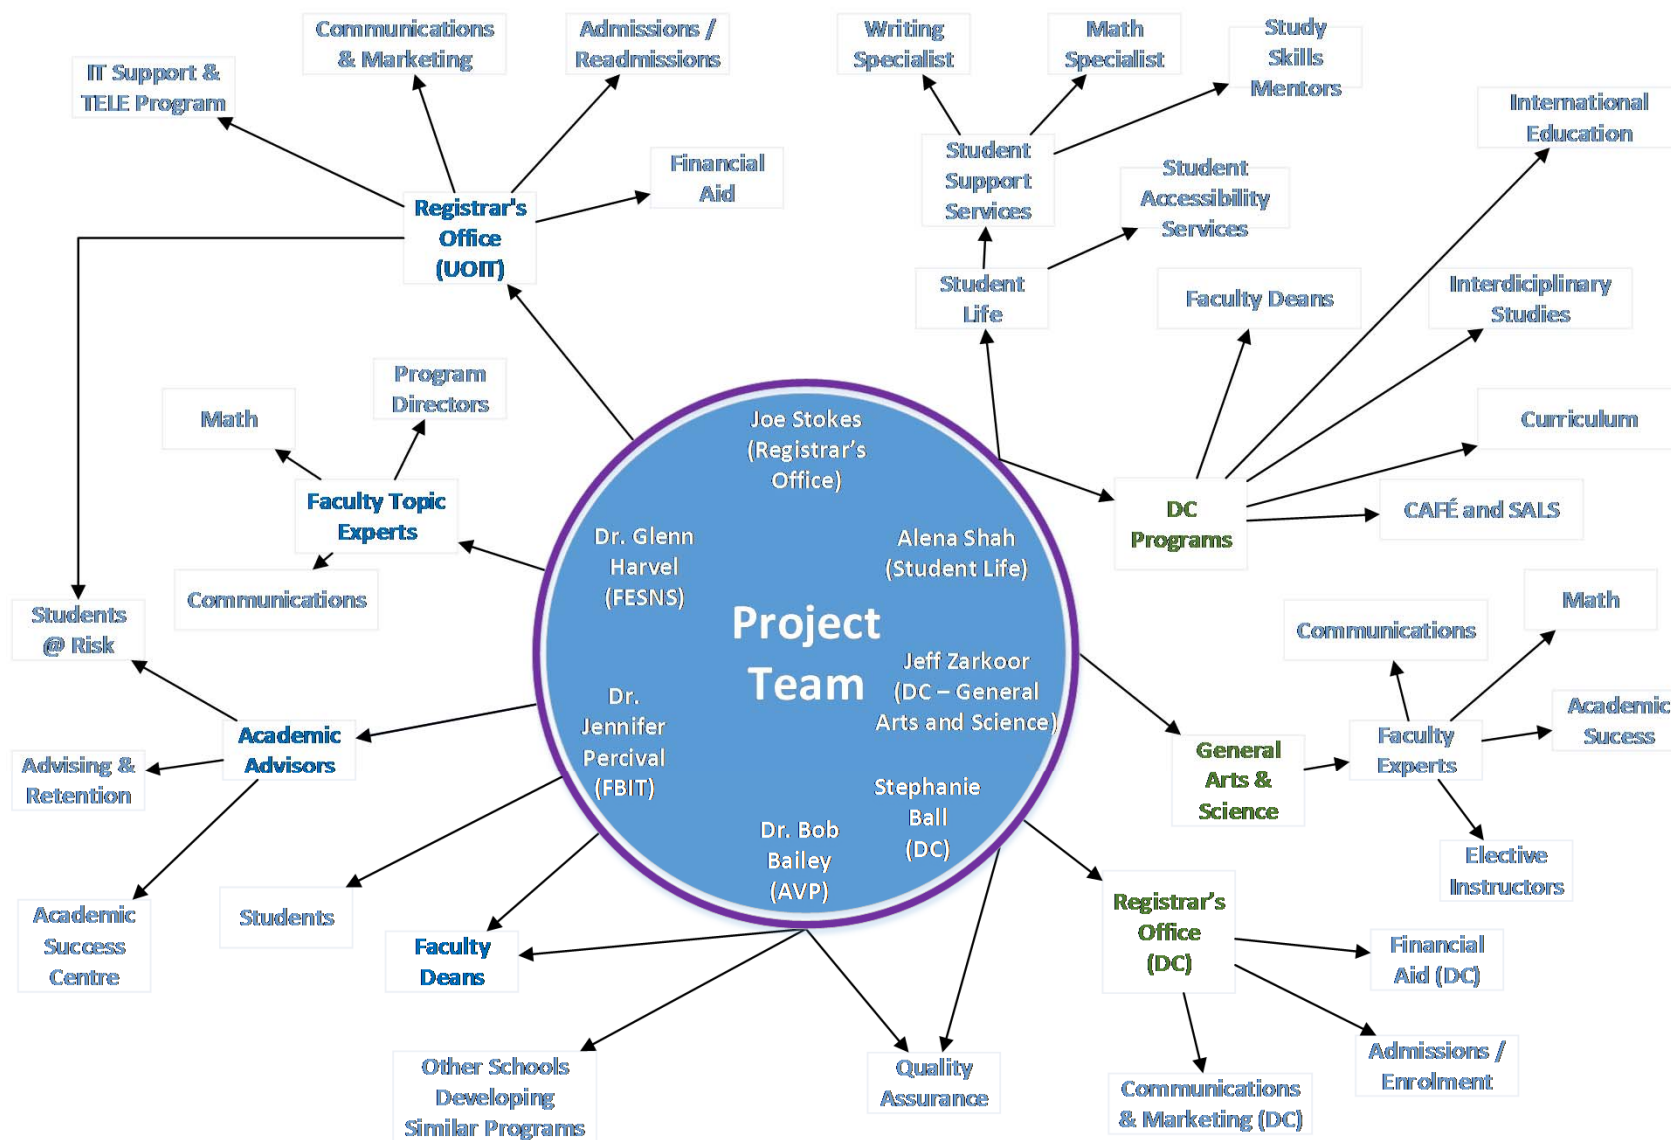

Why did we undertake this project?

- Student Retention at UOIT
- A first year problem
- Existing Relationship with DC
- College learning environment
- Dual credential

Overall success is defined as the student achieving the academic credentials most suited for them

Core Courses of the Program

Course	Engineering	Science	Health Science	Information Technology	Computer Science	Business	Social Science
